Allen and Jay(twice since I have 2 for you), Here is the information that I promised I would send on our interest to act as Program Manager/Owners representative. As you can see we have a team that can service your needs in an economical manner. They are fully backed by our Local and National resources. These include all preconstruction, preplanning , budget management, A/E oversight/management, Consultant oversight/management, Permitting and Jurisdictional Coordination. The one thing that I believe we all wished we had done on Amway was incorporated more of the technology available. We as a corporate mandate now use, VDC, BIM Modeling, Vela Systems, Latista , all electronically accessed by our office staff and field staff alike. We utilize a web based system called HuntConnect that is a real time project status that can be accessed by all stakeholders at any moment(yes Allen It is Apple based not a Blackberry system). That can eliminate the 6" thick Project Monthly reports no one reads and they can go to the pertinent sections for them. I would like to demonstrate how this works on a real project and in person to you as a written narrative does not convey the abilities and advantages. Good to see you the other day, enjoy the weekend and please review this as we think we are the right partner for you having been the first flight through the Venues. You got my contacts call with questions, comments or just to say hello.
